Supporting Organizations and Cross-Cultural Workers

Who We Are

The Institute for Cross Cultural Training (ICCT) is a fully self-funded academic center at Wheaton College. We hold to the college's motto that our work is wholly "for Christ and His Kingdom." ICCT equips Christians called to global service with skills in cross-cultural communication, language learning, and English teaching so they can serve their communities effectively and professionally.

How We Can Help

We can meet your organization's training and education needs for pre-field and on-field workers in language and culture learning, ESL teaching, and practical training for leaders and directors on the field. We offer FREE consulting on procedures and policies for language and culture learning, consulting for ESL programs, and courses that equip cross-cultural workers. All of our courses are offered virtually at a variety of times throughout the year. We can offer cohorts and scheduling for your specific organization's needs.

Our programs include:

English Teacher Training

We offer 8 and 10-hour workshops and 30-hour courses in English as a second language (ESL) teaching for those working with English language learners around the world. Courses include ESL basics, grammar, pronunciation, teaching vocabulary, and teaching one-on-one. Prices vary; discounts available.

Cross-Cultural Living & Ministry

For new and seasoned workers, this course provides a framework, tools, and activities to learn the host culture's patterns and values through videos, readings, and weekly video calls with an instructor. \$500 (\$100 discount if taken with SLA course). 11 weeks, 2-3 hours/week OR 4-5 weeks, 6-8 hours/week.

Language Learner Training

We offer several courses to meet different learner and organizational needs and availability. Most courses are broken into three components:

- 1) **Foundations of Second Language Acquisition (SLA):** An overall framework for language and culture learning, taught through videos, podcasts, readings, and application questions.
- 2) **Language Learning Techniques (LLT):** Learning and putting into practice a variety of techniques to use with a language helper. Each participant meets one-on-one with an instructor to get feedback on Foundations and LLT assignments.
- 3) **Phonetics:** Short video lessons, individual practice drills, and one-on-one video calls with a phonetics instructor, all focused on the sound system of the target language.

Advantages of Working with ICCT

- **Location:** Take the course from anywhere in the world; no travel required, just a reliable internet connection.
- **Cost:** Compared to traditional, in-person programs that include travel and room and board costs, our programs are quite cost-effective.
- **Flexibility:** Participants can schedule study times and one-on-one meetings when it is convenient for them.
- **Individualized assignments:** Unlike a large-group class, our learning experiences are tailored to individual student needs. We use podcasts, videos, readings, discussion boards, reflection questions and video calls to keep participants engaged and use their time wisely.
- **Focus on the target language:** Our courses help participants bridge the gap between general language training and on-field practical learning experiences for a strong focus on the target language to be learned. Phonetics instruction is also focused on the target language.
- **Unlimited free email support:** We give unlimited, free email support to all those who go through our SLA program. Our goal is to "be there" through each step of the on-field language and culture learning process. While this is very labor-intensive on our part, it has proved to be a tremendous help to those who need ongoing guidance and encouragement, and so we have come to see this as a very important part of our ministry. We are also available to agency administrators who are dealing with issues related to the language and culture learning of their on-field personnel.
