

Chemistry Major with Teaching

Major Academic Plan (MAP) for Catalog Year 2024-2025

Total Major hours: 84
Suggested hours per semester: 18

The catalog is the final authority on CATC and major requirements; this is intended as a tool for planning purposes. Student course sequencing may vary depending on course offerings and other variables.

Notes or Special Guidance for Majors:

*Course has prerequisite

^F Fall only course

^S Spring only course

[#] Offered every other year

¹Classes that meet CATC tags are MATH 231 (AAQR) and PHYS 221 or 231 (SP). Education classes that meet CATC Thematic Core tags: EDUC 225 (SI) and EDUC 497 (with EDUC 135 taken at Wheaton) meets the PI theme. Also see footnote 5. A maximum of 3 themes may be met with courses also counting for the major.

² Summer courses through Wheaton in the Northwoods or HoneyRock are encouraged to meet the CATC Shared Course requirement courses: BITH 211, 213 and 315.

³The Physics requirement can be met with either PHYS 221 and PHYS 222 or PHYS 231 and PHYS 232.

⁴The chemistry capstone course (494) is only offered in the fall, therefore all chemistry secondary education majors must student teach in their spring semester.

⁵This major requires an additional science course. Choose from: ENVR 221 (SP), ASTR 305 (SIP) or GEOL 211 (SP).

⁶While EDUC 135, 136 and 136L must be taken together, EDUC 101 can be taken separately. All of these courses are offered in the fall and the spring and should be completed in the first year.

⁷EDUC 324L and EDUC 305L are taken concurrently the semester prior to student teaching.
