Courses taken as pre-requisite requirements of health professional programs (nursing, medical school, etc.) are generally accepted if completed at an accredited institution.

Students are responsible for verifying the course will satisfy the requirement, especially if taken online. Even if Wheaton College approves the course for transfer, the individual health profession program determines whether or not the course meets the specific requirement.

<sup>\*</sup>If study abroad, complete the Transfer Credit Approval (Study Abroad).

<sup>\*\*</sup> Use one form per college
